

Be Part of Making History Support the Inaugural Women's Forest Congress

The Women's Forest Congress (WFC) is a dynamic and inclusive forum to develop strategies and solutions for forests. Women throughout the forest space have come together to share personal and professional experiences, shape the latest innovations, and consider how actions informed by our perspectives can make a profound impact on the future of forests.

The inaugural Women's Forest Congress is expected to attract up to 1,000 individuals, in-person and virtually, across the forest community: those who live in, manage, steward, work in and for, care for, play in, and love all types of forests. We will use our diverse and collective expertise to develop strategies and solutions to address the most pressing challenges for forests and women.
